

Grinding Stone Conical Type

Experience the ultimate grinding performance with the Kasweld Conical Type Grinding Stone, now available in two exquisite colours: a charming pink and a timeless white. This grinding stone is a testament to precision engineering, meticulously crafted to meet and exceed the most demanding standards of quality and efficiency. Whether you're a seasoned professional or a passionate DIY enthusiast, this grinding stone will quickly become an indispensable tool in your workshop. Crafted under the esteemed Kasweld brand, renowned for its commitment to excellence, this Conical Type Grinding Stone symbolises innovation and reliability. Let's dive deeper into what sets this grinding stone apart from the rest:

Superior Material Selection: Kasweld has left no stone unturned regarding material choice. This grinding stone is forged from premium abrasive material, carefully selected for its exceptional durability and cutting-edge performance. It's engineered to withstand the toughest grinding tasks, ensuring consistent results.

Precision in Every Detail: The Conical Type design isn't just about aesthetics but efficiency. This unique shape offers improved control and precision, allowing you to access tight spaces and intricate contours easily. Say goodbye to uneven surfaces and hello to flawlessly finished workpieces.

Technical Specification:

Item Name:	Grinding Stone
Type:	Conical Type
Brand:	Kasweld
Color Options:	Pink or White
Material:	Premium Abrasive Material
Diameter:	6 inches
Arbor Hole Size:	1 inch
Grit Size:	Available in multiple grit options
Maximum RPM:	3,600
Compatibility:	Suitable for most bench grinders
Applications:	Ideal for sharpening & deburring
Heat Resistance:	High heat tolerance for extended use
Bond Type:	Resin bond for enhanced durability

Insulation:

The Kasweld Conical Type Grinding Stone is built with your safety and convenience in mind. It features excellent insulation properties to ensure that you can work with confidence. The insulation protects you from electrical shocks and enhances the grinding stone's overall durability, making it a reliable choice for long-term use.

Size Specification:

SS CONICAL 25 X 38MM

CS CONICAL 25 X 38MM

Safety Precautions:

1. Protective Gear: Always wear appropriate eye protection, gloves, and a dust mask when operating the grinding stone.
2. Stable Work Surface: Ensure your workbench or workspace is stable and well-lit to prevent accidents.
3. Secure Clamping: Properly secure the workpiece before grinding to prevent it from slipping or moving unexpectedly.
4. Grit Selection: Choose the appropriate grit size for your task to achieve the desired finish and prevent overheating.
5. Cooling: Coolant or water keeps the grinding stone and workpiece cool, especially during prolonged use.
6. Maintenance: Regularly inspect the grinding stone for any signs of damage or wear, and replace it if necessary.

Disclaimer:

The Kasweld Conical Type Grinding Stone is designed for specific applications and should be used carefully and carefully. The manufacturer, Kasweld, assumes no liability for any damage or injuries resulting from this product's improper or careless use. Users are advised to strictly adhere to safety precautions and guidelines outlined in the user manual and follow industry-standard safety practices. Kasweld reserves the right to change the product specifications and design without prior notice to improve product performance and user experience.
